VOLUNTEERS: DON'T WAIT, START EMPOWERING THE LEADERS OF TOMORROW TODAY!

Want to lead the way? If you're an adult age 18 or older, you can! We're seeking volunteers who represent our community's diversity - women, men, young adults, older girls, and people of all racial and ethnic backgrounds, including our beloved alumnae.

There are many exciting and flexible pathways through which adults can participate in Girl Scouting. Yes, volunteers can lead a Troop, but they can also develop and participate in training activities, maintain camps, manage data, design marketing pieces, and share their skills with girls in everything from running a business to exploring science careers.

If you would like to volunteer for Girl Scouts of Rhode Island but are unable to commit to a regular schedule, we have a volunteer pathway that will fit your available time. So, whether it's once a month, weekends, or during a particular time of year, discover how you can make a difference in the life of a girl.

Today, more than ever before, girls need a trusted adult role model to relate to as they journey into adulthood.

BASIC QUALIFICATIONS

- * You must be at least 18 years of age or older
- * Be a positive role model for the leaders of tomorrow
- * Flexible attitude and sense of humor
- * You must enroll as a Member in Girl Scouts of the USA: GSUSA Membership Dues of \$12 goes to the national organization to pay for accident insurance covering participation in approved Girl Scout activities, program research and resources, training and services to councils.

THE GIRL SCOUT LEADERSHIP EXPERIENCE (GSLE)

The Girl Scout program—that is, what girls do in Girl Scouting—offers incredible opportunities for girls to grow in their leadership skills, develop lifelong friendships, and earn awards along each step of their leadership journeys, no matter what their grade levels, experiences with Girl Scouting, or background. The Girl Scout program is centered around the **Girl Scout Leadership Experience (GSLE)**, and the best way to deliver the GSLE to girls is through journeys—powerful, fun, and exciting books and awards that are the core of the Girl Scout program. Of course, earning and collecting a variety of badges, patches, and pins is also an important Girl Scout tradition that lives on, because doing so encourages girls to learn and demonstrate important skills. And Girl Scout ceremonies and songs continue to link girls with not only with their Girl Scout peers today but also with the many Girl Scouts who came before them.

Today's effective leaders stress collaboration, inclusion, and a commitment to improving the world around them. Girls themselves tell us that a leader is defined not only by the qualities and skills she hones but also by how she uses those skills and qualities to make a difference in the world—to achieve transformational change! For this reason, the **Girl Scout Leadership Experience (GSLE)**—the framework for defining what girls do in Girl Scouting, how they do it, and who will benefit that was borne out of years of research and development—engages girls in three key activities: **discovering who they are and what they value; connecting with others; and taking action to make the world a better place.** The entire Girl Scout program, regardless of the exact topic, is designed to lead to 15 national leadership outcomes (or benefits) that stem from these three keys.
